

Technical Data

Intellasolve® P1121 Cleaning Fluid

Intellasolve® P1121 is a cleaning fluid for polyurea spraying equipment

TYPICAL PHYSICAL PROPERTIES:

Odor	Sweet
Flash Point (SETA)	155°F
Wt/Gal (lbs)	8.39
Viscosity	5-10 cps
Color	Yellow - Amber

PROCESSING DATA:

Intellasolve® P1121 is intended to be circulated through a liquid pumping system. This cleaning fluid will not evaporate and will soften and dissolve urea and urethane build up in your lines and gun. This mixture may cause swelling of some rubber gaskets. It is recommended that chemically resistant gaskets be used in your spray system. It is recommended that the spray system be flushed with this fluid any time the system will be down for longer than 12 hours.

CAUTION:

Mix before using. This product may separate over time.

Keep containers tightly sealed when not in use. Use in well ventilated area. Avoid breathing vapors and skin or eye contact.

Consult the MSDS for proper handling precautions.
